MOTOR OIL OPTIONS

ONE Service \$109

- Grease & oil change (inc up to 5 litres of Valvoline oil)
- New oil filter
- Electronic battery test
- Fluid level top up covering
 - Battery
 - Brake
 - Clutch
 - Power Steering
 - Radiator
 - Windscreen washers
 - Gearbox/transmission
- 40 point safety inspection inc brakes, suspension, belts & hoses
- Tyre rotation & pressure check
- 2 computer wheel balances

TWO Service \$169

- All of above "One Service" AND..
- New air filter
- Replace 2 wiper blades
- 4 computer wheel balances
- Brake adjustment

TWO PLUS Service

- New standard spark plugs
 - New fuel filter (excl EFI)
- Add \$35 (4cyl), \$45 (6cyl), \$55 (8cyl)

THREE Service

\$259 (4cyl) \$279 (6cyl) \$299 (8cyl)

- All of above "One & Two Services" AND..
- New fuel or EFI filter
- New standard spark plugs
- Inspect HT leads
- Fuel injector cleaner
- Front wheel alignment

Valvoline mineral based included

For multi-valve & high efficiency engines, providing superior wear protection and performance.

- **Valvoline Maxlife** add \$30
Designed for engines with higher mileage. Unique additives recondition seals to help prevent leakage, reduce oil consumption. Oil additives also reduce oxidation preventing thickening allowing better oil flow.
- **Valvoline DuraBlend Semi-Synthetic** add \$30
Reduces sludge & varnish formation providing a cleaner running engine. Improved oil film strength resists oil breakdown. Superior cold start protection. Improved fuel efficiency.
- **Valvoline SynPower Full Synthetic** add \$60
A premium fully synthetic oil that is formulated with the highest quality synthetic base oils and is enhanced with the most advanced additive technology for ultimate engine performance.

Other services to consider...

- **Brake fluid replacement**
Recommended for most cars every 24 months or 40,000kms. Moisture build up over time reduces braking performance and increases system corrosion.
- **Radiator coolant replacement**
Recommended for most cars every 24 months or 40,000kms. Coolant breakdown slows heat transfer, increases engine operating temperatures and increases metal corrosion.
- **Transmission/gearbox service**
Depending on make, recommended every 80,000kms. Reduces transmission noise and increases gear and bearing life making gear changing smoother.

BURWOOD

1/240 Parramatta Road
9745 6007

CASTLE HILL

11E/2A Victoria Ave
9894 7777
